## SUMMARY OF QUALIFICATIONS

My first contact with programming was out of pure curiosity, I started to enjoy it and played with the codes, with time I realized that not only did I like programming, but I was also good at what I do. Since then, I've been specializing in front-end as well as UI and UX Design to always keep the interfaces I produce in high quality.

Skills in Javascript, Typescript, React, HTML, CSS, Node and Github, UI and UX.

Fluent English and basic Spanish.
